DETAILED ACTION

THIS EX-PARTE ACTION IS RESPONSIVE TO THE AMENDMENT FILED 10/28/2008.

- Claims 1-26 were canceled.
- Claims 27-40 were added.
- Claims 27-40 are pending.

This application is in condition for allowance except for the following formal matters:

[1] Claim 27 recites the limitation "the non-rotatable component" in the instant claim. There is insufficient antecedent basis for this limitation in the claim.

Reasons for Allowance

[2] The following is an examiner's statement of reasons for allowance. This application has been reviewed by the examiner and meets all formal (albeit that above) and substantive (i.e., statutory) requirements and the language of the claims is enabled by, and finds adequate descriptive supported in the application disclosure as originally filed.

The primary reason for the allowance of the claims is the presence of limitations in the independent claims, which are not found in the prior art references. The examiner believes that the record of the prosecution as a whole makes clear his reasons for allowing a claim or claims. However, the examiner would like to point out one or more specific reasons and/or limitations that the prior art fails to disclose and/or make obvious. Hence, with regard to independent claims 27 and 37, the prior art fails to disclose of the combination of a seal assembly, a rotatable component, (and non-rotatable component), the free portion arranged at an acute angle relative to the longitudinal axis of the rotatable component, a fixed portion that is angled relative to the free portion, a support for supporting the free portion from a radially inward position relative to the free portion and a mount portion for coupling to the non-rotatable component, wherein the free

portion contacts only a proximate end of the support portion in an unpressurized state and both the proximate end and a distal end of the support portion in a pressurized state of the leaf seal, the free portion being closer to the rotatable component during the pressurized state than in the unpressurized state.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
